

TURBO LEADERSHIP

GRADE:

9 - 12

LENGTH:

12 Lessons

STANDARDS:

National Standards (Health); Common Core (ELA & Math); ESSA; Title IV Part A

DESCRIPTION

High school students face new responsibilities, difficult decisions, and increased academic rigor. Through the Turbo Leadership curriculum, students develop essential, research-based leadership skills — e.g., goal setting and growth mindset — that drive success.

During the program, students apply social emotional development strategies to realistic high school situations and experiences. Lessons concentrate on promoting introspection and encouraging students to find their inner strengths and take pride in their abilities.

Through discovering strategies to learn from their experiences, students will learn to become effective leaders and improve their performance — in and out of school.

USES

This program may be used as a credit-bearing course, as a supplement to an existing course, during summer school, as part of an after-school program, or as part of an athletic program.

“THIS CLASS BROUGHT OUT MY INNER STRENGTHS. I NEVER THOUGHT THAT I WOULD BE LEADER...BUT THIS CLASS HELPED ME FIND COURAGE IN MYSELF AND INSPIRE OTHERS.”

-SHANICE, TURBO LEADERSHIP STUDENT
